

Coming Together To Celebrate Our Global Transformation

The OSI Digital team came together from all corners of the world to celebrate 25 years of innovation and growth at our company. From the US, Canada, India, Philippines, Dubai to Australia, there was incredible excitement as our team rallied around our new company name and the transformative brand we introduced to the market this week. We look forward to the next chapter as we continue to help our customers navigate the complexity of digital transformation while enjoying the experience of OSI's familiar and personal touch. Thank you to our valued customers and partners who've been there with us, as we have with them, every step of the way.
