PURPOSE-BUILT BUSINESS AND
TECHNOLOGY SOLUTIONS THAT
OPTIMIZE PERFORMANCE

We're Driven by One Idea

At OSI Digital, we believe that people are at the center of digital transformation. It's our deep technical and business expertise that allows us to deliver measurable results on digital transformation projects quickly, so our customers can compete in the era of the intelligent enterprise. Plain and simple? We understand our customers' businesses and the industries they serve.

OSI accelerates digital transformation by offering integrated solutions that capture, develop, secure, integrate, analyze and optimize data. Throughout the data lifecycle, our services include the design, development, and implementation of new solutions as well as the ongoing management, enhancement and support of our customers' existing business systems.

We're committed to helping our customers convert their technology visions into reality by designing digital strategies, integrating and managing digital technologies, and transforming their data into actionable insights to drive value.

Prioritizing people while solving our customers business problems with digital technology solutions has kept us in business for 25 years and counting.

OSI Digital

Accelerating Digital Transformation

OSI accelerates digital transformation by offering integrated solutions that:

Capture and manage data from business applications across financials, HR, supply chain, manufacturing, distribution, and customer service, either on premise or in the cloud, to drive efficiency and scale

Integrate your portfolio of applications to support operations, capitalize on emerging technologies and accelerate business performance

Develop and deploy customized solutions to solve today's most pressing business problems

Analyze data to gain actionable insights that enable more informed decision making to drive value for your customers

Secure your data to better manage regulatory compliance and operational risks

Optimize your operations by gaining a contextual understanding of enterprise-wide asset performance and health

The Technology Evolves, But Our Principles Stay The Same

That's been top of mind for us since our start in California in 1993, and it's why we make curiosity, humility, and flexibility the cornerstones of our company. This is what sets us apart and has attracted some of the brightest minds in the world to our team. Together, we've built a nimble company that incorporates the latest technology into our methodologies and staying hyper responsive to our customers' evolving business challenges.

But it's not just what we do that matters. It's how we do it. We take a personal approach to our relationships and make sure that our clients are heard. It's also the secret sauce behind our proven business results. (link to success stories) and it's why more than 90% of our clients choose to work with us again.

This approach has been the basis of our engagements with over a thousand clients, from startups to Fortune 500s, and the bedrock upon which we've built trusted relationships with leading industry partners that include Tableau, Salesforce, Oracle, Microsoft, GE Digital, Amazon Web Services, Dell Boomi and Red Hat. It's how OSI Digital has become a company that today employs over 1,400 people worldwide in offices in the U.S., Canada, Philippines, Dubai, and India. We have supported a diverse portfolio of customers across various industries, including: Software & Business Services, Financial Services, Life Sciences & Healthcare, Manufacturing, Energy, Retail, and Agriculture.

Our Partner Ecosystem

OSI Digital has developed strong partner alliances with the world's leading technology providers. As a member of a select group of top tier consulting partners, we have cultivated these trusted relationships to deliver better business outcomes for our joint customers.
